

PROFESSIONAL SERVICES FOR RSA® ARCHER® GRC PLATFORM

Leverage best practice solutions for long-term success

At-A-Glance

Our expert consultants are dedicated to the successful implementation of enterprise governance, risk and compliance solutions

Engage RSA Archer Professional Services to take advantage of:

- Best-practice solutions developed through our experience with global clients, across industries
- Rapid return on your investment and realization of your vision
- Reduced long-term administrative overhead
- Expert services from consultants who are focused on solution delivery, via the RSA Archer platform

Overview

Whether you need occasional assistance from an RSA® Archer® Certified expert or the attention of an entire project team, the RSA Professional Services group will deliver solutions that address your unique requirements and exceed your expectations for quality.

With deep technical expertise, thousands of hours of experience, and an intimate knowledge of the RSA Archer GRC Platform, RSA consultants are uniquely qualified to build and tailor enterprise governance, risk and compliance (GRC) solutions that address your business requirements.

Key Benefits

The RSA Archer Professional Services team offers a full range of consulting and implementation services, designed to help organizations achieve a rapid return on investment as well as reducing long-term administrative overhead. Through expert services such as RSA Archer GRC Strategy Roadmap, RSA Archer GRC Solution Delivery, RSA Archer GRC Residency, and RSA Archer GRC Installation services, our Professional Services consultants help you realize your organization's vision, with additional benefits, including rapid deployment and a verified implementation.

Professional Services Offerings

RSA Archer GRC Strategy Roadmap

To build a sustainable enterprise governance, risk and compliance program, you need a solid roadmap for communicating goals and aligning business processes organization-wide. As you formulate your approach, take advantage of the RSA Archer GRC Strategy Roadmap service, which helps you assess your current state of program maturity, identify opportunities for growth, and define your vision for a world-class GRC program.

RSA's expert consultants will collaborate with stakeholders across your organization to understand current business processes, pain points, workflow and dependencies. Then we will recommend a prioritized approach to implementing RSA Archer GRC Solutions that allow you to realize both short-term and long-term value.

Through the Strategy Roadmap documentation and application—the final project deliverables—you will be equipped to implement your GRC program in phases, monitor project milestones, communicate status to senior management and modify your strategy as business requirements evolve.

RSA Archer GRC Solution Delivery

Through the RSA Archer GRC Solution Delivery service, our skilled Professional Services team will assist you with identifying your business needs and goals, designing a solution to address your requirements, and developing and executing a detailed plan for deploying the

solution. You can count on our experienced consultants and our proven approach to solution design and system integration for governance, risk and compliance. Highlights of the RSA Archer GRC Solution Delivery service include a dedicated team of RSA Archer Certified experts, standard phased methodology, solution design, configuration and testing, business process optimization, system integration, and documentation and training.

RSA Archer GRC Residency

If your organization is building or tailoring governance, risk and compliance solutions with the RSA Archer GRC Platform, and you need an extra resource to move your project across the finish line, take advantage of the RSA Archer GRC Residency or Expert on Demand (EoD) services. For a period of time you specify, an experienced RSA Archer Certified consultant will work with your team to design and prototype business solutions, configure workflow and notifications, generate reports and dashboards, integrate enterprise data systems and third-party products with the RSA Archer GRC Platform, and transfer knowledge to your team. The GRC Residency or EoD services are ideal for point-in-time support or small-scale initiatives.

RSA Archer SmartStart Installation

Whether you deploy the RSA Archer Platform on-premises or in our hosted environment, RSA offers Installation and Upgrade services, resulting in a rapid deployment and a tested, verified implementation. You can also receive an introduction to key features and functionality of the Platform and your licensed RSA Archer solutions, enabling you to realize immediate value from your investment.

Highlights of the SmartStart Installation service include rapid deployment, a tested, verified implementation, a dedicated resource who ensures that the job is done right, knowledge transfer and introductory training programs adapted to your needs, simplicity and peace of mind.
