

VISIBILITY: IF YOU CAN'T SEE IT, YOU CAN'T STOP IT.

With mobile, cloud and the internet of things creating new openings for cyber threats, your organization is at greater risk than ever. So you need more visibility than ever to detect threats and respond to them effectively.

50%

of IT leaders worry about understanding the full scope of an attack

48%

of IT leaders are concerned about their ability to detect an attack in progress

86%

of organizations collect, monitor or analyze log data and endpoint data...

74%

of organizations collect, monitor or analyze data from network packets...

...but only

10%

say they're able to correlate data from different sources very well

WHAT YOU NEED: **7** BUILDING BLOCKS OF THREAT VISIBILITY

INCIDENT LOGS

ENDPOINT DATA

NETWORK PACKETS

CLOUD APPLICATIONS

DATA ANALYTICS

THREAT INTELLIGENCE

BUSINESS CONTEXT FOR THREATS

GET THE THREAT VISIBILITY YOU NEED, WITH **RSA NETWITNESS® SUITE**
