

SERVICE AGREEMENT FOR RSA EXTERNAL THREAT MANAGEMENT SERVICES

THIS SERVICE AGREEMENT FOR THE RSA EXTERNAL THREAT MANAGEMENT SERVICES ("**AGREEMENT**") IS EFFECTIVE AS OF THE DATE OF THE CUSTOMER'S SIGNED ACCEPTANCE OF THE APPLICABLE QUOTATION MAKING REFERENCE TO THIS AGREEMENT.

ANY AND ALL REFERENCES TO "**CUSTOMER**" SHALL BE DEEMED TO MEAN THE CUSTOMER SET FORTH IN AN APPLICABLE QUOTATION.

THIS AGREEMENT IS A LEGALLY BINDING DOCUMENT BETWEEN YOU (MEANING THE INDIVIDUAL PERSON OR THE ENTITY THAT THE INDIVIDUAL REPRESENTS THAT HAS OBTAINED THE SOFTWARE AND HARDWARE FOR ITS INTERNAL PRODUCTIVE USE AND NOT FOR OUTRIGHT RESALE) (THE "**CUSTOMER**") AND RSA (WHICH MEANS (I) IF CUSTOMER IS LOCATED IN THE UNITED STATES, MEXICO OR SOUTH AMERICA, THEN THIS IS A LEGAL AGREEMENT BETWEEN THE CUSTOMER AND RSA WITH "**RSA**" MEANING RSA SECURITY LLC. IF CUSTOMER IS LOCATED OUTSIDE OF THE UNITED STATES, MEXICO OR SOUTH AMERICA, THEN THIS IS A LEGAL AGREEMENT BETWEEN THE CUSTOMER AND RSA, WITH "**RSA**" MEANING (II) THE LOCAL RSA SALES SUBSIDIARY, IF CUSTOMER IS LOCATED IN A COUNTRY IN WHICH RSA DOES BUSINESS THROUGH A LOCAL RSA SALES SUBSIDIARY; (III) IF CUSTOMER IS LOCATED IN A COUNTRY IN WHICH RSA DOES NOT HAVE A LOCAL SALES SUBSIDIARY, THE LOCAL DELL OR EMC ENTITY AUTHORIZED BY RSA ON THE RSA QUOTE OR OTHER RSA ORDERING DOCUMENT; OR (IV) RSA SECURITY & RISK IRELAND LIMITED (IF CUSTOMER IS LOCATED IN A COUNTRY IN WHICH NEITHER RSA SECURITY LLC NOR DELL EMC HAS A LOCAL SALES SUBSIDIARY).

THIS AGREEMENT SETS FORTH THE GENERAL TERMS AND CONDITIONS UNDER WHICH RSA WILL PROVIDE AND CUSTOMER WILL RECEIVE THE FRAUD ACTION SERVICES ("**FAS**") (AS DEFINED BELOW).

1. **DEFINITIONS.** The following terms shall have the definitions below or set forth elsewhere herein.
 - "**Activation Date**" means activation of the FAS in accordance with the service setup form. "**AFCC**" means RSA's Anti-Fraud Command Center.
 - "**Crimeware**" means software or other software applications or executables designed to misappropriate personal credentials, personal data and/or to engage in fraudulent transactions using improperly obtained identity information, all for the purpose of assisting with or performing illegal or improper acts;
 - "**Customer Domain**" means a specific keyword(s) provided by Customer that references one (1) unique trademark, trade name, word mark, service mark or other designation (e.g., a corporate name) for which the Customer claims legal and equitable ownership or rights thereto; and that shall be used by RSA as the basis for providing the FAS. Customer may request that RSA extend the service to cover additional Customer Domain(s) provided always that the RSA project team shall not be required to work with more than one Customer project team.
 - "**Documentation**" means the manuals, handbooks and/or other information outlining the functionality of the FAS whether in hard copy or soft copy form, that RSA may provide with the FAS.
 - "**eFraudNetwork**" database means a database operated by RSA which contains information aggregated by RSA, discovered by the parties as part of the performance of their obligations under this Agreement, obtained, and/or procured from third parties and/or resulting from risk and fraud assessments carried out by RSA. For the avoidance of doubt, the eFraudNetworkSM database does not include any Confidential Information of the parties or any Non Public Personal Information as defined in Section 5 below.
 - "**Exhibit**" means the Exhibits referenced and attached hereto, the terms of which are incorporated herein.
 - "**FraudAction Service**" or "**FAS**" means the either one, all or any combination of the following services:
 - i. Anti Phishing ("**AP**")
 - ii. Anti Trojan ("**AT**")
 - iii. Anti Rogue App ("**ARA**"); and
 - iv. FraudAction Intelligence ("**FI**")for addressing certain methods of online fraud. These services are performed as a managed service and are further detailed in [Exhibit A](#) hereto and are selected by the Customer in the Service Set Up Form.
 - "**FAS Year**" means the number of months (12; 24 or 36) as specified in the Quote commencing from the Activation Date. Where Customer has exhausted its Incident allocation before the expiration of the then current FAS Year, the FAS Year shall automatically end.
 - "**Incident**" means any one of the following:
 - i. "**AP Incident**" – Either (a) one (1) Universal Resource Locator (herein a "URL"); one (1) internet domain; or one (1) website; which direct account holders and/or clients of the Customer to those specific web based locations; or (b) one (1) email account associated with either of the above web based locations and which is used for the collection of compromised credentials (including e-mail mailbox involved in advance fee fraud "419" e-mail scams); and with respect to which RSA took action to close down or block the web based location or email account; used counter-measures; or performed forensic work.

“AT Incident” – One (1) element of Crimeware, uniquely identified using the “MD5 hash” method via what is commonly known as the Universally Unique Identifier (“**UUID**”), with respect to which RSA took action to detect and analyze a Trojan, perform forensic work, close down or block the domain or IP address of the **“Infection Point”**, (the site which executes a code routine for the purpose of installing or updating Crimeware with or without the consent of the website viewer or which makes Crimeware available for download by third parties) or, a **“Command and Control”** point (being a computer which receives information from or controls a Trojan installed on a third party's computer), or an **“Update Point”** (an web based resource from which Crimeware may download software updates or new configuration instructions), or “Drop Site” (including an email account which is used for the collection of compromised credentials);

“ARA Incident” – A mobile app is internet application that runs on a mobile device (an **“App”**) that enables users to (a) connect their device to internet services that are more commonly accessed by computers or (b) use the internet on their mobile device. An App store is an online portal/store where Apps are publically available for download, license or sale (**“App Store”**). An **“App Detection”** means a universal resource locator (a **“URL”**) detected on an App Store by the AFCC that contains a reference to a Customer Domain name. In the event of an App Detection, Customer will receive an alert via email listing the detected App(s). Upon receipt of an App Detection alert, Customer will promptly review the alert and identify in writing to RSA which specific App(s) listed in the alert:

- a. are not authorized nor approved by Customer; and
- b. that Customer wants RSA to take action

(collectively the **“Action Request”**). Each App listed in an Action Request shall be counted as one (1) Incident for the purposes of taking action. Notwithstanding the foregoing, Customer agrees that the same App in different App Stores that have different/unique URLs shall each be counted as a separate Incident for the purposes of taking action.

“Quote(s)” means one or more documents issued by RSA specifying the FAS that Customer seeks to obtain from RSA, the related pricing and sufficient other information to complete the transaction. The Quote is incorporated into this Agreement by reference.

“Service Fee” means the service fee stated Quote.

“Territory” means the country designated in Exhibit A wherein RSA shall deliver the FAS to the Customer.

2. SERVICES.

- a. Subject to the terms and conditions of this Agreement, and for so long as the Customer is current on the payment of any and all applicable amounts due to RSA hereunder, RSA will provide to Customer, for the duration of the FAS Year, on a non-exclusive and non-transferable basis, the FAS in the Territory (the **“Service”**).
- b. RSA shall implement and activate the FAS in accordance with the service setup form (**“Service Setup Form”**). Customer will use reasonable endeavors to complete and submit the Service Set Up Form to RSA no later than seven (7) business days after the commencement of the Term. Upon receipt of a duly completed and accurate Service Set Up Form, RSA will use reasonable endeavors to activate the FAS within seven (7) business days from the receipt of such form. Access to the Dashboard may become available to the Customer within fourteen (14) business days from the receipt of the relevant information in the Service Set Up Form.

3. TERM & TERMINATION.

- a. This Agreement shall commence and become effective from the Customer's signed acceptance of the Quotation and shall remain in effect for applicable FAS Year counted from the Activation Date (the **“Term”**). Any terms and conditions contained in such purchase order that are in addition to, conflict with or are inconsistent with the terms and conditions of this Agreement or the Exhibits shall be deemed stricken from such purchase order.
- b. Either party may notify the other in writing in case of the other's alleged breach of a material provision of this Agreement. The recipient shall have thirty (30) days from the date of receipt of such notice to effect a cure. If the recipient of the notice fails to effect a cure within such period, then the sender of the notice shall have the option of sending a written notice of termination of the Agreement, which notice shall take effect upon receipt.
- c. Upon termination of the Agreement, Customer shall promptly return to RSA, or destroy and certify in writing to RSA, that it has destroyed the original and all copies, in whole or in part, in any form, of the Documentation, and any other Confidential Information disclosed by RSA under the Agreement. Termination of the Agreement shall not discharge any payment obligations accrued as of the effective date of such termination even if such obligations are payable after the termination date. Upon any termination of this Agreement, Sections 3, 4, 5, 6, 7(b)-(e) and 8 through 12 hereof shall survive in accordance with their terms.

4. OWNERSHIP, INTELLECTUAL PROPERTY RIGHTS AND LICENSE.

- a. RSA shall retain and own all right, title and interest and all Intellectual Property in and to the Services and nothing herein transfers or conveys to the Customer any ownership right, title or interest in or to the Service or any license right with respect to same not expressly granted herein. As used herein, **“Intellectual Property”** shall include, without limitation, copyrights, trade-secrets, service names, trademarks (including the RSA Marks), trade-names, domain names, patents, know-how, formulation, data, technology, designs, inventions, improvements, discoveries, processes, models or sales, financial, contractual and marketing information and

- all other intellectual or industrial property and like rights whether or not registered and the applications thereof;
- b. Subject to the terms and conditions of this Agreement, RSA grants Customer a non-exclusive, non-transferable, non-sub-licensable right to access and use the Services for the purpose for which it is made available to Customer in accordance with the Documentation.
 - c. Customer acknowledges that in providing the Services, RSA may utilize (i) the RSA name, the RSA logo, the RSA domain name, the product names associated with the Services and other trademarks; (ii) certain methodology, information, documents, software and other works of authorship; and (iii) other technology, software, hardware, products, processes, algorithms, user interfaces, know-how and other trade secrets, techniques, designs, inventions, look and feel of the Services and other tangible or intangible technical material or information (collectively "RSA Technology") and that the RSA Technology is the exclusive property of RSA, contains valuable trade secrets and Confidential Information of RSA, and is covered by Intellectual Property rights owned or licensed by RSA. Other than as expressly set forth in this Agreement, no license or other rights in the RSA Technology or the Services are granted to Customer, and all such rights are hereby expressly reserved. Nothing contained in this Agreement shall be deemed to convey to Customer any right, title or interest in or to the Services or data therein or the RSA Technology, except to the extent of the limited license granted in this Agreement.
 - d. Customer shall not (i) modify, copy or make derivative works based on the RSA Technology or the Services; (ii) disassemble, reverse engineer, or decompile any of the RSA Technology; or (iii) sell, sublicense, transfer or make available the RSA Technology or the Services to any third parties.
 - e. Except for Customer Domains, RSA shall retain and own all right, title and interest and all Intellectual Property Rights to all information which is collected, submitted to and made available on the eFraudNetwork database in the course of the performance by either Party of their obligations under this Agreement (or where such title cannot be granted or otherwise transferred to RSA then Customer agrees to grant RSA a non-exclusive, fully paid and perpetual right to use, distribute and/or otherwise make available such information).
 - f. During the term of the Agreement, the Customer hereby grants to RSA, subject to the terms and conditions of this Agreement, a limited, royalty-free, non-exclusive, non-transferable, non sublicenseable, worldwide right and license to use and display the Customer's trade names, trademarks, service marks and associated logos and other promotional materials set forth in the Service Setup Form (the "**Marks**"), solely to the extent necessary for RSA to perform its obligations hereunder, including but not limited to issuance of the cease and desist notice(s).
 - g. The Customer will retain all right, title and interest in and to its Marks, and all goodwill associated with use of such Marks will inure solely to the benefit of the Customer. All use of the Customer's Marks by RSA shall conform to good trademark usage practice or any reasonable trademark usage guidelines or instructions that the Customer may provide to RSA from time to time. No licenses are hereby granted by Customer to RSA with respect to the Marks except for those expressly set forth in this Agreement.

5. CONFIDENTIALITY.

- a. "**Confidential Information**" means the terms of this Agreement and all confidential and proprietary information of RSA or Customer, including without limitation all business plans, product plans, financial information, software, designs, formulas, methods, know how, processes, materials provided to Customer in the course of performing Services under this Agreement, and technical, business and financial data of any nature whatsoever (including, without limitation, any marketing, pricing and other information regarding the Services), provided that such information is marked or designated in writing as "confidential," "proprietary," or any other similar term or designation. Confidential Information does not include information that is (i) rightfully in the receiving party's possession without obligation of confidentiality prior to receipt from the disclosing party; (ii) a matter of public knowledge through no fault of the receiving party; (iii) rightfully furnished to the receiving party by a third party without restriction on disclosure or use; or (iv) independently developed by the receiving party without use of or reference to the disclosing party's Confidential Information. Each party shall (i) use Confidential Information of the other party only for the purposes of exercising rights or performing obligations in connection with this Agreement, and (ii) use at least reasonable care to protect from disclosure to any third parties any Confidential Information disclosed by the other party for a period from the date hereof until three (3) years following the later of (i) the termination date of this Agreement or (ii) the last date of the completion or other termination of Services under this Agreement entered into hereunder, provided, however, that Confidential Information that constitutes, contains or reveals, in whole or in part, RSA proprietary rights shall not be disclosed by the receiving party at any time. Notwithstanding the foregoing, a receiving party may disclose Confidential Information pursuant to a valid order of a court or authorized government agency provided that the receiving party has given the disclosing party prompt notice, to the extent legally permissible, so that the disclosing party will have an opportunity to defend, limit or protect against such disclosure.
- b. RSA may identify Customer for reference purposes unless and until Customer expressly objects in writing.
- c. Customer may not disclose the results of any performance tests of a Service to any third party without RSA's prior written approval. Notwithstanding the foregoing, (i) RSA may disclose Customer Confidential Information to an Affiliate or contractor (who is under an obligation of confidentiality) for the purpose of fulfilling RSA's obligations or exercising RSA's rights hereunder so long as RSA and its Affiliates comply with the confidentiality obligations above.
- d. The Parties do not intend to disclose to one another hereunder information that would be covered by the applicable privacy legislation within or outside of the United States (herein "**Non Public Personal**

Information)". Accordingly, neither Party shall disclose to the other hereunder any Non Public Personal Information regarding either Party's employees, customers, suppliers or other business partners.

6. INVOICING & PAYMENT. In consideration of the FAS, Customer shall pay RSA the Service Fee together with any other fees and expenses as set forth in the Quote. Customer shall reimburse RSA for travel and other usual and customary expenses incurred by RSA's personnel in connection any on-site visits requested by the Customer. All Incident counts and payments are made on a FAS Year basis. The Service Fee is invoiced in advance of the FAS Year. If Service Fee is to be invoiced on a monthly basis, the monthly service fees are determined based on the total Incident allocation for the FAS Year. Therefore, where Customer has exhausted its Incident allocation before the expiration of the then current FAS Year, the stated monthly Service Fees due for the remainder of that FAS Year shall be immediately accelerated and become due and payable upon invoice by RSA. All Incidents allocated to a FAS Year must be used within that FAS Year; all unused Incidents shall expire without notice from RSA. Expired or unused Incidents shall not be carried forward to any subsequent FAS Year. If Customer exhausts the Incident allocation before the end of the FAS Year, RSA will suspend performance of the FAS until such time when Customer purchases additional Incidents pursuant to an additional RSA Quotation (provided however RSA may in its sole discretion continue performance of the FAS subject to Customer's continuing obligation to reimburse RSA a pro-rata Service Fee for each Incident that is over the Incident allocation). RSA shall submit invoices for fees and reimbursable costs and expenses and Customer shall pay each invoice in the manner specified herein. Customer will also pay all related taxes and withholdings, except for those based on RSA's net income. If Customer is required to withhold taxes, then Customer will forward any withholding receipts to RSA. Subject to RSA's credit approval, all amounts are due in the currency stated on the invoice and in full 30 days after the date of RSA's invoice, with interest accruing thereafter at the lesser of 1.5% per month or the highest lawful rate. In the event the Quote reflects an unlimited Incident count during the FAS Year, Customer acknowledges that the Service Set Up Form cannot be modified without RSA's express written agreement.

7. WARRANTY.

- a. RSA shall perform the Service (i) in a workmanlike manner and in accordance with generally accepted industry standards and (ii) substantially in accordance with the Documentation for such Service. Customer must notify RSA of any failure to so perform within ten (10) days after the date on which such failure first occurs. If RSA is unable to correct and/or re-perform the Service within a reasonable time, then RSA's entire liability and Customer's exclusive remedy for failure to so perform shall be at Customer's sole option and upon written notice to RSA, termination of the Agreement forthwith and RSA shall refund the remainder of any unused fees paid in advance by Customer for the affected Service and which remain undelivered as of the termination date.
- b. Customer represents and warrants that:
 - i. it has the authority and that it has obtained all necessary approvals in order to deliver Customer data to RSA or its agents.
 - ii. it owns legal and equitable title or licenses to the Customer Domain(s);
 - iii. it possesses all necessary authority and approvals and has duly authorized RSA to deliver the cease and desist notices on behalf of the Customer;
 - iv. the information provided in the Service Setup Form (or any updates thereto provided by Customer from time to time) and the Action Request is complete and accurate.
- c. ANY INFORMATION COLLECTED AND/OR OTHERWISE OBTAINED BY RSA AND SUBSEQUENTLY DELIVERED TO CUSTOMER PURSUANT TO THE FAS IS PROVIDED "AS IS" AND RSA MAKES NO WARRANTIES OR REPRESENTATIONS AS TO THE ACCURACY OR VERACITY OF THE INFORMATION. The Customer further acknowledges and agrees that RSA is forwarding such Information without alteration and that RSA is not the owner, originator or the author of the Information delivered.
- d. RSA DOES NOT WARRANT THAT INFORMATION COLLECTED PURSUANT TO THE FAS WILL MEET ANY SPECIFIC CRITERIA, INCLUDING BUT NOT LIMITED TO COMPLIANCE WITH ANY "CHAIN OF CUSTODY AND/OR CHAIN OF EVIDENCE" PROTOCOLS, WHICH MAY BE REQUIRED FOR THE INFORMATION TO BE ADMITTED AS EVIDENCE IN ANY CRIMINAL OR CIVIL PROCEEDING BEFORE ANY JURISDICTION.
- e. Disclaimer and Exclusions. Except as expressly stated in Section 7(A) above, RSA (including its suppliers, subcontractors, employees and agents) provides Services "AS IS" and makes no other express or implied warranties, written or oral, and ALL OTHER WARRANTIES ARE SPECIFICALLY EXCLUDED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE AND NON-INFRINGEMENT, AND ANY WARRANTY ARISING BY STATUTE, OPERATION OF LAW, COURSE OF DEALING OR PERFORMANCE, OR USAGE OF TRADE. NOTHING HEREIN IS INTENDED TO CONSTITUTE OR CREATE ANY REPRESENTATION OR WARRANTY BY RSA TO ANY THIRD PARTY, (INCLUDING END USERS), DIRECTLY OR AS A THIRD PARTY BENEFICIARY, WITH RESPECT TO ANY OF THE SERVICES PROVIDED HEREUNDER.

8. LIMITATION OF LIABILITY.

- a. RSA'S TOTAL LIABILITY (INCLUDING THE LIABILITY OF ANY SUPPLIER, SUBCONTRACTOR, EMPLOYEE OR AGENT OF RSA), AND CUSTOMER'S SOLE AND EXCLUSIVE REMEDY FOR ANY CLAIM OF ANY TYPE WHATSOEVER ARISING OUT OF OR IN CONNECTION WITH ANY SERVICES PROVIDED HEREUNDER, SHALL BE LIMITED TO PROVEN DIRECT DAMAGES CAUSED BY RSA'S

SOLE NEGLIGENCE IN AN AMOUNT NOT TO EXCEED (i) US\$1,000,000, FOR DAMAGE TO REAL OR TANGIBLE PERSONAL PROPERTY; AND (ii) THE PRICE PAID BY CUSTOMER TO RSA FOR THE SPECIFIC SERVICE FROM WHICH SUCH CLAIM ARISES IN THE TWELVE (12) MONTH PERIOD IMMEDIATELY PRECEDING THE EVENT GIVING RISE TO A CLAIM HEREUNDER, FOR DAMAGE OF ANY TYPE NOT IDENTIFIED IN (i) ABOVE BUT NOT OTHERWISE EXCLUDED HEREUNDER.

- b. EXCEPT WITH RESPECT TO CLAIMS REGARDING VIOLATION OF RSA PROPRIETARY RIGHTS (INCLUDING ANY LICENSE GRANTED THEREUNDER), NEITHER CUSTOMER NOR RSA (INCLUDING RSA'S SUPPLIERS, SUBCONTRACTORS, EMPLOYEES AND AGENTS) SHALL (i) HAVE LIABILITY TO THE OTHER FOR ANY SPECIAL, CONSEQUENTIAL, EXEMPLARY, INCIDENTAL, OR INDIRECT DAMAGES (INCLUDING, BUT NOT LIMITED TO, LOSS OF PROFITS, REVENUES, DATA AND/OR USE), EVEN IF ADVISED OF THE POSSIBILITY THEREOF; AND (ii) BRING ANY CLAIM BASED ON ANY SERVICE PROVIDED HEREUNDER MORE THAN EIGHTEEN (18) MONTHS AFTER THE CAUSE OF ACTION ACCRUES.

9. **GOVERNMENT REGULATIONS.** The Services and any technology delivered in connection therewith pursuant to this Agreement may be subject to governmental restrictions on (i) exports from the U.S.; (ii) exports from other countries in which such Services and technology may be provided or located; (iii) disclosures of technology to foreign persons; (iv) exports from abroad of derivative products thereof; and (v) the importation and/or use of such technology included therein outside of the United States (collectively, "**Export Laws**"). Diversion contrary to U.S. law is expressly prohibited. Customer shall, at its sole expense, comply with all Export Laws and RSA export policies made available to Customer by RSA. Customer represents that it is not a Restricted Person, which shall be deemed to include any person or entity: (1) located in or a national of Cuba, Iran, Libya, North Korea, Sudan, Syria, or any other countries that may, from time to time, become subject to U.S. export controls for anti-terrorism reasons or with which U.S. persons are generally prohibited from engaging in financial transactions; or (2) on any restricted person or entity list maintained by any U.S. governmental agency. Certain information, Services or technology may be subject to the International Traffic in Arms Regulations. This information, Services or technology shall only be exported, transferred or released to foreign nationals inside or outside the United States in compliance with such regulations. Certain information, products or technology may be subject to the International Traffic in Arms Regulations ("ITAR"). This information, products or technology shall only be exported, transferred or released to foreign nationals inside or outside the United States in compliance with ITAR.
10. **NOTICES.** Any notices permitted or required under this Agreement shall be in writing, and shall be deemed given when delivered (i) in person; (ii) by overnight courier, upon written confirmation of receipt; (iii) by certified or registered mail, with proof of delivery; (iv) by facsimile transmission with confirmation of receipt; or (v) by email, with confirmation of receipt. Notices shall be sent to the address, facsimile number or email address set forth above, or at such other address, facsimile number or email address as provided to the other party in writing.
11. **INDEPENDENT CONTRACTORS.** The parties shall act as independent contractors for all purposes under this Agreement. Nothing contained herein shall be deemed to constitute either party as an agent or representative of the other party, or both parties as joint venturers or partners for any purpose. Neither party shall be responsible for the acts or omissions of the other party, and neither party will have authority to speak for, represent or obligate the other party in any way without the prior written approval of the other party.
12. **MISCELLANEOUS.** This Agreement (i) shall constitute the complete statement of the agreement of the parties with regard to the subject matter hereof and (ii) may be modified only by a writing signed by authorized representatives of both parties. Except for the payment of fees, neither party shall be liable under this Agreement because of a failure or delay in performing its obligations hereunder on account of any force majeure event, such as strikes, riots, insurrection, terrorism, fires, natural disasters, acts of God, war, governmental action, or any other cause which is beyond the reasonable control of such party. RSA shall not be liable under this Agreement because of failure or delay in performing its obligations hereunder on account of Customer's failure to provide timely access to facilities, space, power, documentation, networks, files, software, and Customer personnel that are reasonably necessary for RSA to perform its obligations. Neither party may assign this Agreement to a separate legal entity, without the other party's written consent. Neither party shall unreasonably withhold or delay such consent; provided, however, that such written consent shall not be required if (i) either party assigns this Agreement to a separate entity in connection with a merger, acquisition, or sale to such other separate entity, unless the surviving entity of the merger, acquisition, or sale of assets is a direct competitor of the other party. Nothing herein shall limit RSA's right to assign its right to receive and collect payments hereunder. This Agreement is governed by the laws of the Commonwealth of Massachusetts, excluding its conflict of laws rules. The Parties hereby: (1) irrevocably commit to the exclusive jurisdiction of the federal and state courts located in the Commonwealth of Massachusetts for the purpose of any suit, action or proceeding arising out of this Agreement, the subject matter hereof or any of the transaction contemplated hereby brought by either Party or its successors or assigns; (2) waives, and agrees not to assert, by way of motion, as a defense or otherwise, in such suit, action or proceeding, to the fullest extent permitted by applicable law, that the suit, action or proceeding is brought in an inconvenient forum, that the venue or the suit, action or proceeding is improper, that that this Agreement, or the subject matter hereof or any of the transactions contemplated hereby may not be

enforced in or by such courts; (3) waives the right to trial by jury of any suit, action or proceeding; and (4) waives any right, claim, or entitlement to any punitive or exemplary damages whatsoever, except as otherwise provided in this Agreement. All terms of any purchase order or similar document provided by Customer, including but not limited to any pre-printed terms thereon and any terms that are inconsistent, add to, or conflict with this Agreement, shall be null and void and of no legal force or effect. No waiver shall be deemed a waiver of any prior or subsequent default hereunder. If any part of this Agreement is held unenforceable, the validity of the remaining provisions shall not be affected. In case of any conflict between an Exhibit and this Agreement, the Exhibit shall control. Each Party will comply with all applicable laws and will obtain, and will maintain in full force and effect, all licenses, permits, approvals, and other authorizations that are necessary or required to perform its obligations under this Agreement. The titles and headings of the Sections and other subdivisions of this Agreement are for convenience of reference only and shall not modify, define or limit any of the terms or provisions of this Agreement. This Agreement has been drawn up in and shall be construed in accordance with the English language.

EXHIBIT – A

FRAUDACTION SERVICE DESCRIPTION

This Exhibit describes the components which form the FAS.

A Customer Domain shall be extended by reference to include services provided by the Customer under a domain name that includes the exact words of the Customer Domain(s) provided always that (1) the RSA project team shall be required to work with not more than one Customer project team; and (2) that the accounts which form the target group of fraud campaigns directed at each variation of the Customer Domain are also based in the Territory.

From the Activation Date, each component of the FAS (as selected in the Service Set Up Form) shall be provided with respect to the Customer Domains and the Territory as specified in the applicable RSA Quote.

A. General Fraud Action Service features

1. Hardware and Software
RSA will provide all hardware, software, database and communications equipment necessary to support the FAS.
2. The RSA eFraudNetwork database
Customers shall benefit from RSA's use of eFraudNetwork data.
3. Documentation
RSA will deliver all necessary documentation required to properly benefit from the FAS.
4. 24x7 Availability
AP, AT and ARA services are operational and supported 24 hours per day seven days per week by the AFCC. FI services are operational and supported during RSA's regular business hours.
5. Reporting - Dashboard/Portal
In addition to Incident specific reporting, RSA will provide and maintain access to a secure web based dashboard or portal (herein the "**Dashboard**") that will report all known attacks and provide information about these together with any additional information relating to the Anti-Pharming, Anti-Trojan and Anti-Phishing Services.

B. Fraud Action Service Specific Components

- I. Anti-Phishing
 1. **AP Incident Alerts for Customer Domain(s)**
 - a. Customer will receive alerts from the AFCC.
 - b. RSA's detection is based on, spam and abuse reports, email decoys, customer abuse** mailbox, web logs** and email scanning of tens of millions of emails originating from enterprise email gateways, desktop users and selected large ISPs every day.
 - c. Alerts are provided via email based on pre-determined Customer specific escalation procedures as notified to RSA in the course of the FAS setup.
 - d. The Dashboard will provide summary information including: number of phishing attacks to date; number of closed AP Incidents since the launch of the FraudAction Service; Number of live (active) AP Incidents since the launch of the FraudAction Service; number of AP Incidents open/closed in the last 24 hours.
(** provided Customer provides such information to RSA upon RSA's request).
 2. **"Taking Action" –Shut down; Forensic Work; and Counter Measures** (with respect to a domain or website which is hosting a phishing attack or potential Customer Domain abuse)
 - a. "Taking Action" – AP Incident Shut down
 - i. RSA will analyze each phishing attack and identify the spoofed websites hosting the phishing attack and their respective Internet Service Providers ("ISP(s)").
 - ii. RSA will make best efforts to contact the ISPs, and/or the entity responsible for the spoofed website, on Customer's behalf and alert them of the spoofed website and request that this be shut down. If the spoofed website has been incorporated within a legitimate website, RSA will also make commercially reasonable efforts to notify the owner of the legitimate website of the existence of the spoofed pages within such website as well as of the fact that the hosting ISP has been requested to shutdown the website (it should be noted that whenever a phishing attack originates from a compromised personal computer it is highly unlikely that RSA would be able to directly contact the owner of such computer).

- iii. RSA may attempt to approach each hosting entity and send it a cease and desist letter.
- b. "Taking Action" – AP Incident related Forensic Work
 - i. Wherever reasonably possible RSA will attempt to extract valuable information from the spoofed website server hosting a phishing attack. While this cannot be guaranteed, in the past RSA has extracted data, including counters of the number of users that submitted information to the fraudulent site and in several cases the actual full list of stolen data collected by the fraudster was obtained by RSA (containing the user names, passwords, PINs etc. of all the phishing victims).
 - ii. RSA's forensic work is performed using knowledge RSA has gathered through its alerts infrastructure and network of customers, allowing it to implement lessons learned from one phishing attack to the next.
- c. "Taking Action" – AP Incident Counter Measures
 - i. "Baits" counter-measures utilize RSA's Randomized Credentials Technology ("RCT"), using randomized generated accounts.
 - ii. RSA will where reasonably practicable activate its baits counter measures in coordination with Customer. The exact RCT behavior will be determined based upon the template set of end user credential parameters and configuration information mutually agreed by the Customer and RSA during the setup process.
 - iii. RSA will provide the Customer with the details of the bait records that were submitted to the fraudulent website. These reports will be added to the phishing attack assessment reports as provided pursuant to Section A(5) of this Exhibit A.
 - iv. If Customer elects to use baits, Customer and RSA will work in advance and adjust Customer's own fraud detection system to monitor the baits data that is fed by RSA to the fraudulent website.
 - v. for the purpose of the counter-measures described above, the Customer will provide RSA with not more than one template set of end user credentials for the purpose of creating the counter measures data files.

3. **Blocking of phishing URLs by RSA's ISP Network**

Customer hereby acknowledges and agrees that RSA may at its discretion forward all confirmed phishing attack URLs to its network of blocking partners (which includes but is not limited to Microsoft and AOL and other partners who join the network), for the purpose of blocking access to such fraudulent URLs (herein "**Blocking Partners**").

4. **Anti-Pharming Detection and take down**

Pharming (also referred to as DNS Poisoning or DNS Spoofing) is a method of conducting financial fraud. A Pharming attack redirects web-surfers that try to reach a known Customer website to a spoofed web site instead. Users are redirected to an exact replica of the legitimate Customer website and the fraudsters then 'harvest' legitimate end user credentials in mass numbers. The RSA FraudAction Service identifies DNS Poisoning or Spoofing Attacks by using dedicated servers that monitor the internet in search for poisoned DNS servers. RSA's FraudAction service is geared toward three of the possible four locations where DNS routing can be altered by fraudsters: several ISP DNS servers, DNS Root servers, and authoritative name server locations where the large scale attacks are typically targeted. As part of the Anti-Pharming Service setup, Customer will provide RSA with a list of up to twenty (20) legitimate domains and their resolving IP addresses (the RSA project team shall not be required to work with more than one Customer project team). The FraudAction Service then constantly queries the root DNS servers; the authoritative DNS servers; and several large ISP DNS servers to check for valid name server and IP responses that correctly match with the Customer's legitimate domains as notified to RSA by the Customer. The FraudAction Service alerts the Customer if a suspicious match, that is not included in the legitimate list, is found. The Service also scans several large ISP DNS servers to verify that their cached data is not poisoned. If a Pharming Attack is detected and confirmed by RSA, Customer will be alerted by RSA.

II Anti-Trojan

RSA provides or facilitates the identification and analysis of Crimeware targeting customers of the AT, and if possible as a result of such analysis, takes steps to limit the effectiveness of such Crimeware. Such steps may include blocking infection points and/or shutting down key infection and drop sites. The AT includes the following features:

1. **Identification of Crimeware**

- RSA will use reasonable commercial efforts to provide Customer with near-real-time Crimeware identification based upon information received from RSA's Anti-Virus technology company partner network ("**AV Partners**") and RSA's proprietary internal Crimeware detection technologies.
- RSA, together with its AV Partners, will use reasonable commercial efforts to identify different variants of Crimeware.

2. **Analysis of Crimeware**

When specific Crimeware is identified by, or made known to, RSA, a detailed analysis of the Crimeware will be made available by RSA to Customer. Such analysis will be in a format generally provided by RSA to its customers and may include one or more of the following: the Crimeware family, detection time, MD5 & size, functionality details, customer's triggers used by the crimeware, trigger type. In addition, when specific Crimeware is identified by, or made known to, RSA:

- RSA will analyze fraudster modes of operation including but not limited to: Key-loggers, screen-scrapers, session hijackers, local phishing
- RSA will seek to identify the communication methods employed by the operator(s) or handler(s) of deployed trojans (or other similar types of Crimeware)

3. **Blocking of Infection Points**

RSA will use reasonable commercial efforts to liaise with its network of "Blocking Partners" (which consists of a network of Internet Service Providers and other entities) in order to provide information which will enable these partners to limit or block access to websites which are confirmed Crimeware infection points.

Customer hereby acknowledges and agrees that RSA may at its discretion forward all confirmed infection website information (including but not limited to the relevant URL) to its network of Blocking Partners for this purpose.

4. **Shutdown of Infection Points, Drop Sites, or Command and Control Points**

- a. RSA will analyze Infection Points, Drop Sites, Update Points, or Command and Control Points and seek to identify the operator of the hosting website and/or their respective Internet Service Providers ("ISP(s)").
- b. RSA will apply commercially reasonable efforts to contact the ISPs, and/or the entity responsible for the hosting website, on Customer's behalf, and alert them of the Infection Point and request that this be shut down. If the hosting website has been incorporated within a legitimate website, RSA will also make commercially reasonable efforts to notify the owner of the legitimate website of the existence of the pages hosting the Infection Point within such website as well as of the fact that the hosting ISP has been requested to shutdown the website (it should be noted that whenever a Trojan attack originates from a compromised personal computer it is highly unlikely that RSA would be able to directly contact the owner of such computer).
- c. RSA may attempt to approach each hosting entity and send it a cease and desist letter.

5. **AT Forensic Work**

Whenever reasonably possible RSA will attempt to obtain Information from the Crimeware Drop Sites and provide this to Customer where RSA, in its sole discretion, deems this Information to be of value to the Customer. Without making any warranties or representation as to the availability of useful Information and by way of example only, this may include without limitation lists of compromised account holder credentials appropriated by the fraudsters (such as account holder usernames, passwords, etc). RSA's first priority will be to try and obtain information from the crimeware drop sites, and only then attempt to shut down the drop sites.

6. **Reporting - Dashboard**

RSA will maintain and provide access to the Dashboard which will provide Customer with near real time alerts of all newly reported forms of Crimeware, together with detailed information about these and the methods of infection or known drop sites. Upon the prior written request of Customer, RSA will be available for a periodical team meeting with dedicated project manager.

III **Anti-Rogue App**

RSA will scan the App Stores as long as such App Stores are available and accessible online. During such scans, RSA will perform App Detection for the Customer Domain(s). RSA reserves the right to add, remove or exclude any such portal/store from RSA's list of covered App Stores without notice to nor approval from the Customer.

1. **Action**

Upon receipt of the Action Request, RSA will apply commercially reasonable efforts to contact the App Store via a notice letter to take Action. As used herein, "**Action**" means a request by RSA directed to an App Store or the developer of an App to (i) remove the App from the App Store; (ii) to remove any reference(s) the Customer Domain within the App and/or the App's Store listings; and/or (iii) to remove the relevant URL by sending one (1) notice letter to the App Store and the App developer. Customer will be notified of RSA's actions via email. Other than the notice letter, no further action will be taken by RSA.

2. **Customer Acknowledgements**

Customer acknowledges that: (a) for the purposes of sending App Detection alerts, receiving Action Requests and taking action, RSA shall liaise and work with only one (1) designated Customer project team; and (b) the dispatch of a notice letter by RSA is not a guaranty that the URL will be removed. For the avoidance of any doubt, Customer acknowledges that the basis of the ARAS is aimed at fraud mitigation and not the enforcement of the Customer's intellectual property rights. RSA does not enforce nor provide services that enforce the Customer's legal or equitable property rights in a Customer Domain or brand.

IV Fraud Intelligence

RSA monitors certain forums, publicly accessible web based messaging forums and other publicly accessible internet channels (together the "Forums") where known or suspected perpetrators of online fraud (herein "Fraudsters") exchange information relating to their activities. RSA will use reasonable efforts to collect, analyze and deliver information to the Customer. When RSA deems it reasonably necessary to notify the Customer of a potential fraud risk, RSA will provide threat reports to the Customer. A threat report is an intelligence report that does not directly affect the business of the customer but may provide valuable intelligence insights. These basic intelligence reports and feeds offered in the FraudAction service include but not limited to IP, email, mule account, feeds and generic threat reports on cybercrime underground activities. If the Customer has purchased Premium FraudAction Intelligence (as stated on applicable Quote) RSA will also provide intelligence reports where it appears to indicate specific, ongoing or planned fraudulent exploits and vulnerabilities which may relate to or may affect the business of the Customer in the Territory. If the Customer has purchased Premium FraudAction Intelligence (as stated on applicable Quote) RSA will also provide the following to the Customer:

1. **Identification of Fraud Methods.**

RSA uses reasonable efforts to:

- a. identify methods used by Fraudsters to collect and/or redirect funds misappropriated from the Customer and/or its accounts holders;
- b. identify cross channel exploits (such as methods which may combine both online fraud and phone "voice phishing" or "social engineering") which are discovered on the Forums and which may relate to or may affect the business of the Customer;
- c. identify specific bank or other financial services accounts (being accounts set up by Fraudsters and/or related third parties for the purpose of holding funds appropriated from Customer and/or its account holders by fraudulent means) and collection locations used by Fraudsters to withdraw such funds; and
- d. analyze Fraudster communications both general and specific to the Customer on an ongoing basis to detect emerging threats and trends.

2. **Intelligence Incidents.**

RSA will provide timely alerts where RSA deems it reasonably necessary to notify the Customer of a potential fraud risk. The alerts will be sent to a pre-determined list of the Customer's personnel as identified in the Service Set Up Form.

Important Disclaimers relating to the FI service:

- a. The Customer acknowledges and agrees that in certain jurisdictions RSA may, with or without prior notice to the Customer, be compelled by law to disclose information collected in the performance of the FI service to law enforcement or other public authorities notwithstanding any recommendations and/or instructions of the Customer to the contrary and any such disclosure will not be a breach of the confidentiality obligations of the Agreement or any other section thereof.
- b. Subject to RSA's reasonable discretion, RSA will cooperate with law enforcement authorities as requested by the Customer (and at Customer's sole cost and expense) in order to provide reasonable assistance with the apprehension of Fraudsters seeking to withdraw misappropriated funds in cash via identified cash collection points. Notwithstanding the above, RSA will provide such cooperation only in accordance with the Agreement.
- c. RSA will not act on behalf of the Customer or as the Customer's agent or representative for the purpose of its cooperation with law enforcement agencies and neither will RSA act as Customer's adviser or provide the Customer with any advice including but not limited to any legal, technical or other advice in relation to its use of the FI service deliverables.
- d. The parties further acknowledge that the FI service may present risks including but not limited to potential acts of retaliation by Fraudsters which may be directed against RSA and/or the Customer and/or the Customer's account holders and/or any number of third parties.
