

Federal Communication Commission (FCC) Statement: FCC Declaration of Conformity for the RSA SecurID 700 Authenticator

The RSA SecurID 700 Authenticator complies with Part 15 of the FCC Rules. Its operation is subject to the following conditions:

- May not cause harmful interference
- Must accept any interference received, including interference that may cause undesired operation

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy. And, if not installed and used in accordance with the instructions, it may cause interference to radio communications. However, there is no guarantee that interference will occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or change the location of the receiving antenna
- Increase the separation between the equipment and the receiver
- Connect the equipment into an outlet on a circuit that is different from the one the receiver uses
- Consult the dealer or an experienced radio or television technician for assistance

Modifications not expressly approved by the manufacturer could void the user's ability to operate the equipment under FCC Rules.
